On June 9th, 2016, California legislation raised the legal age to purchase tobacco from 18 to 21 years old. This new law is 308(a) (1)PC – Sales of tobacco to someone under 21 years old. During the months of June and July, 2017, Hollister Code Enforcement (HCE) staff visited all tobacco retailers in Hollister to remind owners and/or management in writing of the raised legal age limit and notifying them of a potential decoy program that would be used to verify that retailers were abiding by the new regulations.

On October 12th, 2017, HCE, along with San Benito County Public Health Services (PHS) and youth decoys, ranging in ages 18 to 20, conducted compliance operations at all retail establishments that sell tobacco products in Hollister; 23 in total.

During the compliance operations the decoy was instructed to purchase a tobacco product from the retailers. The decoy was instructed to provide the retailer his/her identification if asked by the clerk that would demonstrate they were under age.
