Severe COVID-19 Case Report

APRIL 5, 2021

This report is based only on available data;
not all results have been received.

COVID-19 Related Deaths by Age Group

The data in this report displays information on demographics of COVID-19 related deaths and severe cases, including age, gender, race/ethnicity, and underlying health conditions. Providing detailed demographic breakdowns enables local health jurisdictions to determine appropriate actions to better prevent, control, and slow the spread of COVID-19. Deaths considered COVID-19 related are based on cause of death listed on the death certificate. The most recent death reported was a 74-year old female, with three underlying health conditions.
