

SAN BENITO COUNTY COMMUNITY HEALTH ASSESSMENT 2023 - 2024

Scan code for
full report

The San Benito County Community Health Assessment (CHA) presents a comprehensive overview of the health conditions and opportunities for improvement in San Benito County, with a particular focus on health equity. The following is a snapshot of the CHA, including priorities to address and strengths to celebrate. Please look to the full report for further details, and please share your feedback at CHE@sanbenitocountyca.gov

About San Benito County

San Benito County has better health conditions than 39 other CA counties, ranking **19th** out of 58, according to the County Health Rankings.

58%

Hispanic/Latino

25%

of the population is 18 years and younger.

Priorities to Address

196%

increase in age-adjusted mortality rate of opioid-related overdose deaths from 2020 to 2022.

12%

of adult residents are cigarette smokers.

23%

of 11th-grade students use vape products.

12.4%

of adults reported 14 or more days of poor mental health per month.

43%

of 11th-grade students report current alcohol or drug use.

8%

rate of food insecurity as of 2023.

Many residents **eligible for CalFresh** assistance are **not enrolled**. By encouraging enrollment in CalFresh, San Benito County strives to bridge the gap between eligible residents and this vital assistance program, ultimately working toward equitable outcomes for all.
